DECOTINT

A SANITARY COLD WATER PAINT.

What a great amount of work—of dirt—and of expense is entailed when you paper your walls, to say nothing of the evil results from a sanitary point of view.

DECOTINT is a sanitary preparation—ready for immediate use by the simple addition of cold water. Beautiful effects may be had from a variety of delicate tints—and it may also be had in white.

DECOTINT may be left many days in mixture and retain its quality. This is not true of other preparations.

Card of Thanks.

To His Worship The MAYOR.

Dear Sir,

Kindly allow me through the columns of this paper and on behalf of the Red Deer Volunteer Fire Brigade to extend to you and your able body of councilmen our thanks and our appreciation of your most generous donation to our department. We appreciate your kindness and shall as a body be always willing to serve our town in the capacity that we have the honor and pleasure to represent.

Wishing you and the Council every success in the discharge of your duties.

Believe us to be gentlemen, yours for service,

Fruitful Country Still Unsettled

District West of the Red Deer River is Sparsely Populated.
Looks Like the Very Best of All Alberta.

Census Enumerator Tells of the Prospects of That Promising District.

J. Mc. Kenzie of Calgary, returned to the city yesterday after a few weeks in the Hand Hills and adjoining districts. Mr. McKenzie was engaged there in the taking of the census for that district. In an interview with the Albertan he expressed himself as surprised that the district was not more densely populated because, to his fancy, the district is the very best that he has seen in all Alberta.

As an example of what the district would produce, he stated that at luncheon one day he feasted upon green peas grown in that district and wild strawberries which were picked in the district.

The district at the present time is essentially a ranching district. He saw a number of fields of winter wheat, which last week stood high in the chaff as he walked across the fields. Mr. Mc. Kenzie, it must be remembered, is an old member of the R.N.W.M.P., and stands about six foot even, and grain which will go that high is pretty good stuff.

Department of Agriculture at the Fairs

The Department of Agriculture has adopted a novel scheme of assisting the various exhibitions throughout the Province and of presenting instruction along certain lines.

It will have a large tent at each fair containing a working dairy where demonstrations will be given illustrating the principles underlying the operation of cream separator and the churning and working of butter. Daily demonstrations will be given so that everyone wishing to become acquainted with dairy work may have an opportunity to do so. Any one having difficulties which they have met with in running a separator or in churning should come prepared to obtain enlightenment.

The Department will also have an exhibit of noxious and other weeds and samples of a number of the most troublesome weeds in various stages of growth

so that one may easily learn to recognize them. This exhibit will be in charge of the chief weed inspector and anyone having samples of weeds which he desires to have identified should bring them to the weed tent.

In another part of the tent a poultry expert will have present a crate for fattening poultry and other profitable appliances which should be used in poultry raising. He will also have plans of model poultry industry. This should be a most important exhibit as there is no finer country in the world for raising poultry than right here in Alberta. This work will be in charge of A. W. Foley of Bowmanville, Ontario, who has charge for years of one of the Dominion Government Poultry fattening and breeding stations.

Another novel feature of the Department's exhibit will be demonstration in cooking which will be given by Miss Edith C. Charlton of the Buffalo Public Schools. Daily demonstrations will be given illustrating the principles underlying the cooking of the common things we eat. Ladies should be especially interested in this and are cordially invited to attend the demonstrations.

These demonstrations will be of an instructive character and all should aim to spend some time at the Department's tent, meet the officials in charge and learn of the work the Department is trying to improve and advance farm work and farm life in the Province.

More Horses.

Railway contractors are finding difficulties in obtaining a sufficient number of teams to carry on the great amount of grading that is to be done just now.

This condition is pretty certain to prevail for some time for the disparity between the world's supply and consumption of horses has been greatly increased and equilibrium will not be restored in a short time. This is especially true in the west. The annual migration to the plains in the west from the congested centres of Europe has disturbed economic conditions here. For years to come the main industry must be agriculture, necessitating a vast number of horses in the hands of a class who have hitherto been neutral factors so far as the horse market was concerned. Hitherto they were neither consumers nor producers of horses. Now they are important factors in the consumption of draft power so that the demand of horses for the subjugation of our wild land is likely to continue until we are well past the pioneer stage.

Macleod Unites With Calgary.

The Macleod Board of Trade has passed the following resolutions:

Resolved, that cheap rates for harvest excursions from the east be extended to the province of Alberta.

Resolved, that this board of trade take action to unite with other boards in southern Alberta to induce a railway system competitive to the C.P.R. to enter that section of the province.

Ready to Begin Work On New Farm.

Lethbridge, July 30-Dr. Saunders today concluded the purchase of a site for an experimental farm.

Change in Ontario Politics.

Toronto, July 29-It is reported that Hon. G. W. Ross will go to the senate in lieu of that body to succeed Hon. W. R. Scott. G. P. Graham, A. G. McKay, or N. W. Rowell will probably be Ross' successor at the head of Ontario Liberals.

C. P. R. Land Sales.

The total sales of C. P. R. lands, in Alberta during March, April, May and June of this year amounted to 161,091 acres, at an average price of \$6.20 an acre. During the same months in 1905 there were sold 49,750 acres, at an average price of \$4.30 per acre.

Creamery notes.

The June make of butter at the Creamery was 23,521 lbs.

The amount paid out in June in cheques to balance winter make of butter was \$19,287.78.

The creamery continues to increase its output of butter. The amount at present is about 800 lbs. weekly more than last year.

Cupid in Town

By CONSTANCE
D'ARCY MACKAY

Copyright, 1936, by Ruby Douglas

It was a warm morning in midsummer. The sky was intensely blue and the air rife with the smell of dust and heat parched pavements. Fifth avenue seemed as arid as a desert. Houses were closed, their blinds drawn. Maids gossiped in alleyways. Instead of the pagany of carriages which graced the street on winter afternoons there were occasional cabs, lumbering automobiles and buses filled with tourists.

I was strolling along toward the club and devoutly wishing I was any place but in town. I was suddenly espied Honoria Langham. She had come in from a house party on Long Island, and our meeting was the merest accident. I at once suggested the little Casino in Central park as a cool and inviting place for luncheon. Hon-

oria agreed. "Aunt Myra considers you as a safe companion," she said demurely.

"I know it's sheer poetry," said I, "this dream of mine."

trisa agreed. "Aunt Myra considers you as a safe companion," she said demurely.

REARING THE CHICKS.

Importance of Cleanliness in the Poultry Yard.

Perfect cleanliness is of the highest importance in the poultry yards and houses during the entire year, but is especially so in the early months, when every detail should be carefully attended to which may be of any possible benefit to the growth and development of the young stock.

Fowls which have the very best of food and care in other respects will not thrive when confined in unclean and unsanitary conditions.

W. H. Works in American Poultry Journal. Cleanliness is highly necessary in the rearing of young chicks, no matter whether they are intended for exhibition stock, for breeders or for the market.

By cleanliness is not meant the use of a large quantity of disinfectants which may give the appearance of cleanliness, although these are undoubtedly good to use in connection with the care of the poultry quarters. Cleanliness is of such great account in the summer that in many cases it may mean the saving of the life of a chick as well as the health and growth.

Cleanliness is the foe of vermin, and vermin is the cause of a majority of the poultry losses and diseases.

The houses for the young stock should be dry and well ventilated, and the chicks should be kept from crowding and taught to go on to roosts as soon as possible, so that there will be no danger of deformed breastbones caused by overcrowding.

The brood coops and brooders should be kept clean and the poultryman's attention during the hot season, and the little chicks should have clean, dry straw on the floors of the coops and also plenty of fresh air.

Lime is one of the best things to use in the houses, either in the form of whitewash or sprinkled about the floor as a powder. Carbolic acid is also a good disinfectant, and kerosene should be used in the fight against lice and mites.

The chicks should not be dusted with insect powder and their dusting places sprinkled with it. The yards should be dug up often and disinfected with lime and carbolic acid, so that the ground will not become old and full of disease germs.

SELECTIONS

STREET CAR'S BIRTHDAY.

First Successful Horse Car Line Opened Fifty Years Ago.

Suburbanites in this country are actually only fifty years old. Although there were many experimental horse car lines in the early part of the nineteenth century, including the famous "John Mason," an omnibus which ran on strap rails in New York city, the first street car line to have a continuous record of operation down to the present day was opened between Boston and Cambridge in the spring of 1856. It has developed from a single track line, over which four or five cars made half hourly trips between Bowdoin square and Harvard square, to the present unified system of the Metropolitan Street Railway company, with a network of 450 miles of track, over which 250,000,000 revenue passengers travel each year. At the close of the year 1935, the street car line was regarded as a most doubtful venture, for it was thought by many that the public would prefer to continue using the more convenient and comfortable motor busses. In many years it had furnished a means of conveyance between the New England capital and its suburbs.

The line, being built in 1856, thanks to the efforts of such electrical engineers as Thomas Davenport, Professor Moses G. Farmer, Professor C. Page, Thomas Hall, and others, was the first of its kind in the world. It was the first of its kind in the world. It was the first of its kind in the world.

The line, being built in 1856, thanks to the efforts of such electrical engineers as Thomas Davenport, Professor Moses G. Farmer, Professor C. Page, Thomas Hall, and others, was the first of its kind in the world. It was the first of its kind in the world. It was the first of its kind in the world.

NEW YORK CRICKETS.

In the Metropolis the Ugliest City in the World.

Despite advantages of beautiful nature and surroundings, New York is the ugliest city in the world. Its sky line looks like the side elevation of an old castle, in which the teeth have been gnawed out of the different heights. The story slacks nestle against twenty-eight story office buildings, and where by chance two or three office buildings have been erected side by side it is 100 to 1 shot that the three will be built in absolutely different styles and materials in a way to shock and puzzle every artistic sensibility.

Take, for instance, that pride of New York, Fifth avenue. It begins among dignified buildings dating from fifty years ago, but before Fourteenth street is reached presents some nightmarish effects in "converted" houses. To "convert" is to convert a building from its original use to a different use. To the uninitiated the new buildings in this section appear to be ordinary business structures. If anyone would take the trouble to climb to the top of one of them and look into the windows of the others he would see that they are given up entirely to shirking.

Your true New Yorker would not let preservation of even one thoroughfare stand in the way of a two cent profit. A Fifth avenue building is a building until Central park is reached Fifth avenue looks like St. Louis after the cyclone. You can only charitably imagine that the city is being run up by a society of blacksmiths after late fabled on a Welsh rabble. Millionaires' palaces, gold and terra cotta hotels, the city's most beautiful buildings are stuck about promiscuously.

And if any wayfarer has hoped for Fifth avenue to be the most beautiful street in the world, he will be disappointed. Here are the edifices of the frenzied financiers. In most cases their grandeur is a mere facade. The city has been torn down at public expense. Some have built houses, while many others have merely bought lots and are holding these lots for speculation. The city has been torn down at public expense. Some have built houses, while many others have merely bought lots and are holding these lots for speculation.

The first commercially successful electric railway was operated in 1888 by Frank J. Sprague at Richmond, Va., and the new motive power was first put into operation in a large city when it was used in the year 1890. The name "trolley" is said to have originated among the employees of a local experimental line in Kansas City, Mo., where it was used to haul a type of car was early dubbed by Dr. Oliver Wendell Holmes "the broomstick trolley," a name which is often humorously applied to it.

A Famous Old Castle. The ancient castle of San Angelo, with a dense palace of the past, has been the scene of the Roman empire, has been, after years of neglect and decay, restored to a condition worthy of the name of a castle. The castle is now a museum, and the castle is now a museum, and the castle is now a museum.

The castle is now a museum, and the castle is now a museum, and the castle is now a museum. The castle is now a museum, and the castle is now a museum, and the castle is now a museum.

TUESDAY, JULY 31st, 1905.

HANDS ACROSS THE SEA.

Through the courtesy of Mr. Longson we have been shown a copy of a widely-read and important English publication, "The Lambeth Borough Gazette," which, under the above title, published, in a recent issue, a letter written by Geo. St. Claire, of Red Deer, to his father-in-law, Mr. L. K. Tunmer, Brixton Hill, England. The letter, in part, is as follows:

Dear Father:—In supplement to previous letters, I am sending this to describe how Americans are pouring into this country and acquiring advantages that properly belong to our people on the "other side of the dub."

I enclose a pamphlet, compiled and issued by the Red Deer Board of Trade, descriptive and illustrative of Alberta in general, and of this district in particular. I am aware that there are hundreds of your friends paying from \$1,000 to \$1,500 per annum in rent, who might, with that amount, purchase 100 acres or more here, and be their own masters. If you have any enterprising spirits there who wish to better their conditions, why, send them across: we will do our best to see they don't starve.

With kind regards to all,
Your affectionate son,
Geo. ST. CLAIRE.

The Gazette then comments favorably upon Alberta, as described in the pamphlet, chiefly under the following heads: Cattle, grain and available markets.

A SCANDAL SESSION.

This session will be remembered for other things than for any legislation accomplished. It was a year of exposure. More scandals have been brought to light during this session than in any other since the union of the provinces. From early in March until July opposition members have steadily and persistently prosecuted enquiries into the expenditure of public money, the management of public domains, and into charges of plunder and graft in public business. No session in Canadian Parliamentary history has seen more faithful work done in committees of investigation. The enquiries have been pressed in the face of many difficulties. Documents have been delayed or withheld, witnesses have refused to answer questions and have been supported in their refusals by ministers and government majorities. Investigation into several transactions has been burked sometimes indirectly, and two or three times by a direct vote of the House, where a party majority refused to allow the enquiry. Nevertheless the record is long and ghastly.

Among the deals and scandals exposed and partially revealed during the passed session are the following:

The Saskatchewan valley land deal.

The Atlantic Trading Co. contract and the group of scandals connected with it.

The Bronson and Ray concession and ex-Speaker Belcourt's connection with it.

The Gelinas exposure and the consequent refund.

The scandal of the ice breaker "Montcalm's" silver plate with the overcharges and the refund consequent on exposure.

The thin red line election frauds.

The fake homestead scandals. The scandals of the Arctic steamship expedition.

The scandals of the St. Joseph, Disraeli and Grand Valley wharves.

Leophold, alias Lazarus Labor Bureau scandal.

The Arundel Printing Co. contract exposures.

The steamer Kestral accounts.

The Morin scandals.

The Georgian Bay survey supply swindles and the attempted fur coat bribery connected with them.

The Magnetawan lighthouse. The deal of the grazing losses.

The timber lease scandals. The Moncton land purchase deal and rake-off.

The Philip Wagner outrage. The Laurier tower collapse.

The steel files deal. The prince Albert election deal.

frauds by Dominion officials. —Journal.

Denatured Alcohol.

It now seems that the Standard Oil monopoly will receive its quietus, not from the courts of justice, which it has so long laughed at, but from alcohol.

In January next, the United States revenue tax on denatured alcohol will be abolished.

This will permit manufacturers to produce the new fuel in direct and free competition with oil. The result will be a tremendous blow to Rockefeller and his band of law-breakers.

Denatured alcohol can be manufactured for less than twenty-five cents a gallon; it will give twice as much light as coal oil, it is absolutely safe in use, it is non-odorous, it gives out no smoke and can be made from so many things that it can never be cornered by a trust.

As compared with gasoline, its advantages are thus set forth by a New York newspaper.

1. It is so much safer than one can almost say it is absolutely safe.

2. It is clean and sanitary.

3. There will never be any chance to advance its price on account of scarcity.

4. It can be produced about as cheaply as gasoline.

5. It is equal to gasoline as a power producer.

With this great fuel in general use the grip that Standard Oil now has on the throats of the people of the United States will be loosened, and liberty will be given some chance to breathe.

In Ontario an agitation for free alcohol has been under way for some time. That agitation should sweep Canada and make free alcohol a reality here. If we are to compete with the United States, we must not lag behind in the race for cheap power by which the wheels of industry are turned.—Tribune.

Canadian Canned Goods Faultless.

Winnipeg, July 26th.—In connection with the announcements of Chicago canned meat revelations and their possible effect upon the markets for canned goods, the minister of marine and fisheries has ordered the British Columbia fishery commission to investigate and inspect the salmon canning operations and salmon canning from a hygienic and sanitary standpoint. Mr. Brodeur has received the report, which says: "The commission has made a thorough inspection of the canneries operating in the Fraser river district, and without exception, found the sanitary conditions satisfactory."

Harvesters' Excursion.

Toronto, July 24.—Harvesters' excursions to the west have been arranged, and dates for points west of Kingston and Sharbot Lake are Aug. 14, 17 and 22. For Ontario points east of Sharbot Lake, the date is Aug. 28. For Quebec, Aug. 30. Excursions from Maritime Provinces which are generally held after others leave, this year Aug. 7th.

Some of Canada's Biggest Things.

Canada has the largest wheat field in the world.

Canada has the largest grain elevator in the world at Port Arthur, capacity 7 million bus.

Canada has the largest lift lock in the world at Peterboro.

Canada has one of the largest canal locks in the world at the Soo.

Canada will have the largest bridge span in the world at Quebec.

Canada has the richest nickel, cobalt silver and asbestos mines in the world.

Canada has one of the largest zinc smelters in the world at Frank.

Canada has the largest gold fields in the world, in the Yukon.

Canada has more than one half the fresh water of the world.

Canada has 11,125 factories employing 306,000. Wages 88 million.—Calgary Herald.

Invite Morse.

Calgary, July 27.—Mayor Emerson last night wired General Manager Morse, of the Grand Trunk Pacific, who is at present visiting Winnipeg, an invitation to visit Calgary and discuss the railway situation.—Herald.

PROVINCE OF ALBERTA

Notice to Stock Owners.

Notice is hereby given that on and after the 1st day of July, 1906 the joint office of the Recorders of Brands for the Provinces of Alberta and Saskatchewan will be situated at Medicine Hat, Alberta. All communications in connection with brands should after that date be addressed to the Recorder of Brands, Medicine Hat, Alberta.

Money sent in payment of fees should be remitted by postal note, money order or express order made payable to The Recorder of Brands, Medicine Hat. If cheques are sent they must be certified by the bank on which they are drawn and the necessary exchange must be included.

Recording of Brands in both Provinces.

Persons ranging cattle in the vicinity of the inter-provincial boundary (the 4th Meridian) when applying for brands should, in order to protect themselves, also apply for a record of the same in the Province of Saskatchewan, which may be effected on payment of an additional fee of \$1.00.

TO THE EDITOR OF THE NEWS

Dear Sir,—As I have been appointed by the Council in Lethbridge, Hon. organizing officer for this district of the Legion of Frontiersmen, may I ask for a little of your space.

The Legion has received the sanction of the war office at home so that, when we have the pleasure of measuring ourselves against another country in the great game of war, we are acknowledged combatants and not liable to be hung as spies or as the Germans hang the Frenchmen in 70-71. But we are not a military body and we are not tied with red tape and sealing wax.

In the particulars of our organization it is stated, "we will not accept a war service who belong to any militia or volunteer corps." We are not seeking to arm in any sense other than the safety of the provinces wherein we serve, that if we can do for home defence we will not seek service outside such provinces; and that we will not permit our members to divert themselves by raiding or filibustering in the domains of His Majesty's Allies.

What are we then, or what do we hope to be? We hope to prove a power of defence for our lands and the eyes and ears of the Imperial armies. We will not talk patriotism. The citizen unwilling to fight for home defence is not a man, but only a social error. A Frontiersman is one who has worked and lived in wild countries or at sea. One who can look after and take care of himself. Such a man is always ready to do anything and the readiest men will get the first invitations to join in any little row.

I have been asked by several what is the good of it all, where do I gain? There are five advantages of membership shown in the pamphlet accompanying the application form for membership; they are not great advantages to the person. But I do not think we should look for personal gain. Though we all groups at her at times England and the British Empire is worth as much as we can give and it may be that at some time we shall be allowed to give ourselves.

The "imitation tough" is not required nor the man who requires mothering and looking after. Our unit is the "team of four men," who, on active service, will live together, fight together and stand by and help each other. No sane man would combine with a useless waster who may fall at a pinch. We ask for the hard bitten brand, who will do a man's work.

There are three classes of membership, and three different small subscriptions. I can give pamphlets and particulars to any requiring them, and will gladly answer any questions I can. Should it be asked for, a meeting to discuss the matter can be called. The making of team leaders and officers is entirely settled by the members. It is best to advance slowly and quietly, but I think we should get, in the district, at least twenty qualified men ready to do their best should the occasion arise.

The badge of the Legion bears the motto which was out on General Gordon's signet ring, GOD GUARD THEM.

It applies to the Empire as to the man.

Yours faithfully,

G. M. OSBORN SPRINGFIELD.
Red Deer, July 22nd, 1906.

Rosedale News.

Rosedale held a school meeting on July 25th.

Mr. R. Jamieson is doing fine work with his ten plows, they are turning over the Prairie fine.

Mr. M. Catham has some fine Spring wheat sixty inches high. The crops are looking fine out here, and the potatoes are all in bloom now.

John Slinger is going on a visit to see his Father and Mother.

May Exclude All Exports From Canada.

Ottawa July 25.—A further examination of the new German Tariff shows that the discrimination against goods imported under the general tariff is from 30 to 35 per cent. But should the duties under this general tariff prove insufficient, a clause in this tariff act gives the government of that country power to make the schedule practically prohibitive.

Government Appoints Grain Commission.

Ottawa, July 25.—The enquiry which is to be made into the grain trade of Canada will be of a most comprehensive character. The order-in-council appointing the commissions directs that they are to "consider all matters connected with the Grain Inspection Act and Manitoba Act, with power to visit the grain growers and elevators all over the wheat growing regions. The methods of handling the grain at the various stations, farmers' elevators, as well as company elevators, the distribution of cars, methods of the grain dealers in Winnipeg, Toronto and Montreal, and the system of government inspection and collection of fees, selection of grades and the methods of handling the grain at Port William and Port Arthur, at the lake ports, at Montreal, St. John and Halifax, and also the conditions existing as to the manner of handling grain upon its arrival in England."

The commissioners who are entrusted with this extensive enquiry are: John Miller of Indian Head, Sask., chairman; William McNaire, of Keyes, Man., and George E. Goldie, of Ayer, Ont. The secretary has not yet been formally appointed, but he will be an Alberta man.

Sixteen Doukhobors been Sentenced.

Regina July 25.—Sixteen crazy Doukhobors who have been on a fanatical pilgrimage at Yorkton who have committed to gaol for a year for disturbing the peace, arrived yesterday to enter on their term of incarceration. The warrant for their arrest was made out by request of Peter Veregin their leader.

Successful Pupils.

All the pupils of Miss Michener who tried the recent examination in connection with the Toronto Conservatory of Music were successful. These were:

Primary—Miss Bremner, Evelyn Brumpton, Muriel Cowell. Intermediate—Sadie Smith, Eva Slade, Alice Youmans. Teacher and pupils are alike deserving of praise for this good showing.

King sends A Shire.

London July 25.—Acting under instructions from King Edward, A. C. Beck of Peterborough, has purchased a five year old bay gelding which his Majesty intends to send to Canada as a typical specimen of the English shire horse.

Trip of Alberta Members.

On Tuesday, August 7, the members of the Alberta legislature begin a trip through the southern part of the province. The trip will occupy a week, as follows:

Tuesday, Aug. 7.—Leave Calgary at 8.30, arrive Banff 11.00, leave Banff at 12.00, arrive Calgary again 20.30.
Wednesday, Aug. 8.—Leave Calgary at 7.00, stopping 15 min. at Okotoks, High River, Nanton, Claresholm, Leavings. Arrive at Macleod 11.45, leave Macleod 12.00, arrive Frank 14.45, leave Frank 15.00, arrive at Coleman 15.20, leave Coleman 16.00, arrive at Pincher Creek 17.15, leave Pincher Creek 18.15, arrive at Macleod 19.30.

Thursday, Aug. 9.—Leave Macleod 4.00, arrive at Lethbridge 6.00 by A. R. & I. line.
Friday, Aug. 10.—Leave Lethbridge 12.00, arrive at Medicine Hat 16.00.

Saturday, Aug. 11.—Leave Medicine Hat 5.45, stopping 15 minutes at Gleichen and Langdon, arriving at Calgary at 12.00.

Local and General

A great number of people were at Sylvan Lake on Sunday.

Don't forget the Red Deer fair October 9th and 10th.

A curfew bell has been established at Cranbrook.

Mr. Gordon Armstrong contractor made a business trip to Olds on Thursday.

A plague of locusts has been reported from near St. Thomas Ont.

The warm weather and frequent rains are developing crops in a wonderful manner: crops never looked better.

Mr. Gustave Perrier met with a very painful accident at the sawmill on Wednesday last. He was working near the saw when his hand slipped, and the saw severed the first finger of his left hand above the first joint.

It has been reported that many people miss the trail to Sylvan Lake. To correct this difficulty Mr. W. E. Trump has painted several guide boards which will be set at suitable points along the way. These will direct tourists unacquainted with the road.

Yesterday afternoon the Hon. W. H. Cushing received word from the C. P. R. that the car asked for by the legislation for the trip to the south country will be in readiness at the depot in Calgary on Tuesday morning Aug. 7. That means that the trip will be taken, which is something to the satisfaction of the members and the people of the north.—Albertan.

TUESDAY, JULY 31st, 1905.

HANDS ACROSS THE SEA.

Through the courtesy of Mr. Longson we have been shown a copy of a widely-read and important English publication, "The Lambeth Borough Gazette," which, under the above title, published, in a recent issue, a letter written by Geo. St. Claire, of Red Deer, to his father-in-law, Mr. L. K. Tunmer, Brixton Hill, England. The letter, in part, is as follows:

Dear Father:—In supplement to previous letters, I am sending this to describe how Americans are pouring into this country and acquiring advantages that properly belong to our people on the "other side of the dub." I enclose a pamphlet, compiled and issued by the Red Deer Board of Trade, descriptive and illustrative of Alberta in general, and of this district in particular. I am aware that there are hundreds of your friends paying from \$1,000 to \$1,500 per annum in rent, who might, with that amount, purchase 100 acres or more here, and be their own masters.

If you have any enterprising spirits there who wish to better their conditions, why, send them across: we will do our best to see they don't starve.

With kind regards to all,
Your affectionate son,
GEO. ST. CLAIRE.

The Gazette then comments favorably upon Alberta, as described in the pamphlet, chiefly under the following heads: Cattle, grain and available markets.

A SCANDAL SESSION.

This session will be remembered for other things than for any legislation accomplished. It was a year of exposure. More scandals have been brought to light during this session than in any other since the union of the provinces. From early in March until July opposition members have steadily and persistently prosecuted enquiries into the expenditure of public money, the management of public domains, and into charges of plunder and graft in public business. No session in Canadian Parliamentary history has seen more faithful work done in committees of investigation. The enquiries have been delayed or withheld, witnesses have refused to answer questions and have been supported in their refusals by ministers and government majorities. Investigation into several transactions has been buried sometimes indirectly, and two or three times by a direct vote of the House, where a party majority refused to allow the enquiry. Nevertheless the record is long and ghastly.

Among the deals and scandals exposed and partially revealed during the passed session are the following:

The Saskatchewan valley land deal.

The Atlantic Trading Co. contract and the group of scandals connected with it.

The Bronson and Ray concession and ex-Speaker Belcourt's connection with it.

The Gollins exposure and the consequent refund.

The scandal of the ice breaker "Montcalm's" silver plate with the overcharges and the refund consequent on exposure.

The thin red line election frauds.

The fake homestead scandals.

The scandals of the Arctic steamship expedition.

The scandals of the St. Joseph, Diarrhea and Grand Valley wharves.

Leopold, alias Lazarus Labor Bureau scandal.

The Arundel Printing Co. contract exposures.

The steamer Kestral accounts.

The Merin scandals.

The Georgian Bay survey supply swindles and the attempted fur coat bribery connected with them.

The Magnetawan lighthouse. The deal of the grazing leases. The timber lease scandals.

The Moncton land purchase deal and rake-off.

The Philip Wagner outrage. The Laurier tower collapse. The steel files deal.

The prince Albert election deal frauds by Dominion officials.

—Journal.

Denatured Alcohol.

It now seems that the Standard Oil monopoly will receive its quietus, not from the courts of justice, which it has so long laughed at, but from alcohol.

In January next, the United States revenue tax on denatured alcohol will be abolished.

This will permit manufacturers to produce the new fuel in direct and free competition with oil. The result will be a tremendous blow to Rockefeller and his band of low-breakers.

Denatured alcohol can be manufactured for less than twenty-five cents a gallon; it will give twice as much light as coal oil, it is absolutely safe in use, it is non-odorous, it gives out no smoke and can be made from so many things that it can never be cornered by a trust.

As compared with gasoline, its advantages are thus set forth by a New York newspaper.

1. It is so much safer that one can almost say it is absolutely safe.

2. It is clean and sanitary.

3. There will never be any chance to advance its price on account of scarcity.

4. It can be produced about as cheaply as gasoline.

5. It is equal to gasoline as a power producer.

With this great fuel in general use the grip that Standard Oil now has on the throats of the people of the United States will be loosened, and liberty will be given some chance to breathe.

In Ontario an agitation for free alcohol has been under way for some time. That agitation should sweep Canada and make free alcohol a reality here. If we are to compete with the United States, we must not lag behind in the race for cheap power by which the wheels of industry are turned.—Tribune.

Canadian Canned Goods Faultless.

Winnipeg, July 26th.—In connection with the announcements of Chicago canned meat revelations and their possible effect upon the markets for canned goods, the minister of marine and fisheries has ordered the British Columbia fishery commission to investigate and inspect the salmon canning operations and salmon canning from a hygienic and sanitary standpoint. Mr. Brodeur has received the report, which says: "The commission has made a thorough inspection of the canneries operating in the Fraser river district, and without exception, found the sanitary conditions satisfactory."

Harvesters' Excursion.

Toronto, July 24.—Harvesters' excursions to the west have been arranged, and dates for points west of Kingston and Sharbot Lake are Aug. 14, 17 and 22. For Ontario points east of Sharbot Lake, the date is Aug. 28. For Quebec, Aug. 30. Excursions from Maritime Provinces which are generally held after others leave, this year Aug. 7th.

Correspondence.

TO THE EDITOR OF THE NEWS

Dear Sir,—As I have been appointed by the Council in London Hon. organizing officer for this district of the Legion of Frontiersmen, may I ask for a little of your space.

The Legion has received the sanction of the war office at home so that, when we have the pleasure of measuring ourselves against another country in the great game of war, we are acknowledged combatants and not liable to be hung as spies or as the Germans hang the Franciscans in 70-71. But we are not a military body and we are not tied with red tape and sealing wax.

In the particulars of our organization it is stated, "we will not accept of a service who are long to any militia or volunteer corps." We are not seeking to arm in any interest other than the safety of the provinces wherein we serve, that if we are for home defence we will not seek service outside such provinces; and that we will not permit our members to divert themselves by raiding or filibustering in the domains of His Majesty's Allies.

What are we then, or what do we hope to be? We hope to prove a power of defence for our lands and the eyes and ears of the Imperial armies. We will not talk patriotism. The citizen unwilling to fight for home defence is not a man, but only a social error. A Frontiersman is one who has worked and lived in wild countries or at sea. One who can look after and take care of himself. Such a man is always ready to do anything and the readiest men will get the first invitations to join in any little row.

I have been asked by several what is the good of it all, where do I gain? There are five advantages of membership shown in the pamphlet accompanying the application form for membership; they are not great advantages to the person. But I do not think we should look for personal gain. Though we all grouse at her at times England and the British Empire is worth as much as we can give and it may be that at some time we shall be allowed to give ourselves.

The "imitation tough" is not required nor the man who requires mothering and looking after. Our unit is the "team of four men," who, on active service, will live together, fight together and stand by and help each other. No sane men would combine with a useless waster who may fail them at a pinch. We ask for the hard bitten brand, who will do a man's work.

There are three classes of membership, and three different small subscriptions. I can give pamphlets and particulars to any requiring them, and will gladly answer any questions I can. Should it be asked for, a meeting to discuss the matter can be called. The making of team leaders and officers is entirely settled by the members. It is best to advance slowly and quietly, but I think we should get, in the district, at least twenty qualified men ready to do their best should the occasion arise.

The badge of the Legion bears the motto which was cut on General Gordon's signet ring, GOD GUARD THEM.

It applies to the Empire as to the man.

Yours faithfully,

G. M. OSBORN SPRINGFIELD.
Red Deer, July 22nd, 1906.

Rosedale News.

Rosedale held a school meeting on July 25th.

Mr. R. Jamieson is doing fine work with his ten plows, they are turning over the Prairie fine.

Mr. M. Catham has some fine Spring wheat sixty inches high.

The crops are looking fine out here, and the potatoes are all in bloom now.

John Slinger is going on a visit to see his Father and Mother.

May Exclude all Exports From Canada.

Ottawa July 25.—A further examination of the new German tariff shows that the discrimination against goods imported under the general tariff is from 30 to 300 per cent. But should the duties under this general tariff prove insufficient, a clause in this tariff act gives the government of that country power to make the schedule practically prohibitive.

Government Appoints Grain Commission.

Ottawa, July 25.—The enquiry which is to be made into the grain trade of Canada will be of a most comprehensive character. The order-in-council appointing the commissions directs that they are to "consider all matters connected with the Grain Inspection Act and Manitoba Act, with power to visit the grain growers and elevators all over the wheat growing regions. The methods of handling the grain at the various stations, farmers' elevators, as well as company elevators, the distribution of cars, methods of the grain dealers in Winnipeg, Toronto and Montreal, and the system of government inspection and collection of fees, selection of grades and the methods of handling the grain at Port William and Port Arthur, at the lake ports, at Montreal, St. John and Halifax, and also the conditions existing as to the manner of handling grain upon its arrival in England."

The commissioners who are entrusted with this expansive enquiry are: John Miller of Indian Head, Sask., chairman; William McNaire, of Keyes, Man., and George E. Goldie, of Ayr, Ont. The secretary has not yet been formally appointed, but he will be an Alberta man.

Sixteen Doukhobors been Sentenced.

Regina July 25.—Sixteen crazy Doukhobors who have been on a fanatical pilgrimage at Yorkton who have committed to gaol for a year for disturbing the peace, arrived yesterday to enter on their term of incarceration. The warrant for their arrest was made out by request of Peter Veregin their leader.

Successful Pupils.

All the pupils of Miss Michener who tried the recent examination in connection with the Toronto Conservatory of Music were successful. These were:

Primary—Miss Bremner, Evelyn Brumpton, Muriel Cowell, Intermediate—Sadie Smith, Eva Slade, Alice Youmans.

Teacher and pupils are alike deserving of praise for this good showing.

King sends A Shire.

London July 25.—Acting under instructions from King Edward, A. C. Beck of Peterborough, has purchased a five year old bay gelding which his Majesty intends to send to Canada as a typical specimen of the English shire horse.

Trip of Alberta Members.

On Tuesday, August 7, the members of the Alberta legislature begin a trip through the southern part of the province. The trip will occupy a week, as follows:

Tuesday, Aug. 7.—Leave Calgary at 8.30, arrive Banff 11.00, leave Banff at 18.00, arrive at Calgary again 20.30.

Wednesday, Aug. 8.—Leave Calgary at 7.00, stopping 15min. at Okotoks, High River, Nanton, Claresholm, Lebans. Arrive at Macleod 11.45, leave Macleod 12.00, arrive Frank 14.45, leave Frank 15.00, arrive at Coleman 15.20, leave Coleman 16.00, arrive at Pincher Creek 17.15, leave Pincher Creek 18.15, arrive at Macleod 19.30.

Thursday, Aug. 9.—Leave Macleod 4.00, arrive at Lethbridge 6.00 by A. R. & I. line.

Friday, Aug. 10.—Leave Lethbridge 12.00, arrive at Medicine Hat 16.00.

Saturday, Aug. 11.—Leave Medicine Hat 5.45, stopping 15 minutes at Gleichen and Langdon, arriving at Calgary at 12.00.

Local and General

A great number of people were at Sylvan Lake on Sunday.

Don't forget the Red Deer fair October 9th and 10th.

A curfew bell has been established at Cranbrook.

Mr. Gordon Armstrong contractor made a business trip to Olds on Thursday.

A plague of locusts has been reported from near St. Thomas Ont.

The warm weather and frequent rains are developing crops in a wonderful manner: crops never looked better.

Mr. Gustave Perrier met with a very painful accident at the saw-mill on Wednesday last. He was working near the saw when his hand slipped, and the saw severed the first finger of his left hand above the first joint.

It has been reported that many people miss the trail to Sylvan Lake. To correct this difficulty Mr. W. E. Trump has painted several guide boards which will be set at suitable points along the way. These will direct tourists unacquainted with the road.

Yesterday afternoon the Hon. W. H. Cushing received word from the C. P. R. that the car asked for by the legislation for the trip to the south country will be in readiness at the depot in Calgary on Tuesday morning Aug. 7. That means that the trip will be taken, which is some thing to the satisfaction of the members and the people of the north—Alberta.

K. M. BYERS,
MANAGER RED DEER YARD

Local and General

Mr. Horn was at the Lake over Sunday.

Send a Red Deer pamphlet to your friends.

Red Deer School made a good showing in the recent exams.

The C.P.R. have decided to make Arcola a divisional point.

Miss Ina Brabon, of the News spent a week at Sylvan Lake.

All the farmers are now busy cutting their timothy hay.

See the call for tenders for the new public school.

It is reported that King Edward will visit Canada next year.

W. F. Tranter, Provincial Auctioneer will sell your property and stock to the best advantage.

Mr. and Mrs. Stewart of Ont. are visiting at the home of their son Chester in Woodlee Crescent.

See the ad. of the Dominion Meat Co. on fifth page. Head quarters in Purdy Block.

Phillips Bros. are selling out. It is reported they are going out of business.

If you intend selling your house hold goods see W. F. Tranter, Provincial Auctioneer.

Mrs. Wells, who has been visiting her sister, Mrs. Bell, returned home to-day.

List your lands with the Central Alta. Land Co. They are doing good business.

Mrs. Comfort of Lincoln Co. Ont., is visiting her son, John Comfort, for some weeks.

A Mrs. Baehner of Wetaskiwin attempted suicide, on Tuesday last by taking laudanum.

Another effort will be made to induce Newfoundland to enter Confederation.

The Calgary baseball team claims the championship of Alberta.

Mrs. Bell leaves to-day to spend a week at Lethbridge and other points south.

Mrs. Wm. Springbolt was at the Lake on Sunday where Mrs. Springbolt and family are staying.

Mrs. Stableford of Alexander St. is still on the sick list. During the warm weather and holiday time do not forget to visit the sick.

Mr. McLean has returned from Edmonton where he has been engaged as Departmental examiner for some weeks.

For a successful turnover of your furniture or stock see W. F. Tranter, Provincial Auctioneer, Red Deer.

The newest paper to be launched in Alberta is the Camrose Mail. We speak for it a good measure of success.

It has been reported that Mo Kenzie and Mann are endeavoring to secure from the Ottawa Gov. large subsidies of money and land to build a line to Fort Churchill on the Hudson Bay.

The Dominion Meat Co. have opened in their new headquarters the Purdy block. They have fitted commodious quarters, a large attractive window, and under the able management of Mr. Ball will likely increase their business.

Frank W. Morse, general manager of the C.P.R. is in Edmonton. He indicates that the road will likely enter Edmonton by way of Clover Bar. The city of Calgary will give a banquet in his honor.

On Monday evening the south bound train was delayed for some time, because of the two front wheels of the engine jumping the track. The mishap occurred on the curve about half a mile from the town, and was probably caused by stones, as the road was newly ballasted at that point.

The C. P. R. will likely build a line from Regina to Prince Albert. The C. P. R. line from Saskatoon to Edmonton being made the main line for all business north of Red Deer, and this will give them a 90 miles shorter route to Winnipeg and within 10 miles of the distance by the G. T. P.

The other evening we had the pleasure of inspecting the new C. P. R. Dining Car, "Okanagan" which makes the trip between Calgary and Strathcona. The car carries an efficient staff of seven servants to attend to the wants of the passengers.

The "Okanagan" is one of the most handsomely furnished and fitted up cars we have seen in the country and contains a kitchen, pantry, store closets, and bins, a dining car and parlor car each with a capacity for seating 18 persons, the two latter apartments being upholstered in green plush. The comfort and convenience of passengers appears to have been studied in every way possible.

In the Baseball match on Friday evening between the Professional men of the town and the Bankers, the former won in a score of 17 to 11.

The Professional men were captained by Dr. Collinson, and the Bankers by Mr. Helliwell, of the Imperial Battery, Messrs McCutcheon and Mann for the Professionals, and Messrs Helliwell and Pooley for the Bankers. It is rumored that the clerks have challenged the professionals to do battle for their new laurels.

By adhering to the good old style of minstrelsy, Richards & Pringle's Minstrels, who will appear shortly, have established for themselves a reputation that any theatrical manager might well envy. For 23 years the visits of Richards & Pringle's Famous Georgia Minstrels have been looked upon as a gala event, always clean, wholesome and good; their name has caused the largest theatres to be filled to overflowing. Clarence Powell heads the list, and proper that he should. The program promised will be on the old-time minstrel order, the same as made minstrelsy so famous in past years. Sweet southern melodies, beautiful music, dances and witticisms make up a program that is bound to please and interest. The noon-day parade and evening band concert will be given as usual. They appear in the Opera House on Thursday, Aug. 2nd.

Lieutenant Governor Bulyea, Edmonton; Thos. Underwood, Calgary; Dr. McKecknie, Vancouver; and Rev. Mr. Padley, visited the Bulwell mine at Lethbridge.

Two fine bulldogs guarding a berry patch near Hedley, B. C., the other day, were killed by a bear, who wanted the berries for herself and her two cubs.

D. C. Clark, who stole a sulky and horse at Whitewood, has the distinction of being the first occupant of Alberta's penitentiary at Edmonton.

exciting hundred yard dash for men which was finally won with a tug of war between teams captained by Messrs Inglis and Bethune. Capt. Inglis team after a desperate pull carried off the trophy. Proceedings closed with a short address from the pastor Rev. R. Simpson, who expressed his gratification at the success of the affair. The proceeds amounted to over fifty dollars.

Geo. Fleming has rented a cottage at Banff and Mrs. and Miss Fleming left on Thursday to spend a few weeks in the mountains.

Councillor Hives is progressive. A portion of the grading in his township this year has been done with a traction engine attached to a grader instead of horses.

The gravel train has been busy between here and Innisfail for some time. Bad spots have been fixed up and the road bed is now in excellent shape.

Walter Shuh has opened a butcher shop in town in the building formerly occupied by the post office and is doing a rushing business in this neighborhood.

John Miller, the popular section boss has added a substantial addition to his residence. W. Henderson had the contract for the work.

Will Douglas' four horse outfit ran away the other day with a disk harrow. One of the horses became detached from the others and had one of its hind feet nearly cut off with one of the disks. The horse will likely have to be destroyed.

Miss Sheppard daughter of Rice Sheppard of Strathcona, was the guest of her friend Maude Carswell left for Regina on Friday.

Geo. A. Domoney narrowly escaped being killed in his well a few days ago. He was down in the well and Ronald Pye was letting down a curb to him when it slipped and fell to the bottom with terrific force. G. A. escaped by an inch. He was so dazed that he cannot yet understand how it was done.

Misses Howe and Stevens are visiting Mrs. Stewart.

The Misses Grigley of Calgary are the guests of Mrs. Quantz.

HAY-TIME ONCE MORE

To enable you to get all the hay you require, it's necessary for you to own a McCormick mower. It's noted for upland hay. The Big 4 McCormick stands alone on the market. All our competitors will tell you that their mower resembles the McCormick. Why? Because they admit that the McCormick Dig 4 takes the lead; but just politely inform them they have not yet got the original. We give our positive guarantee with each machine; if not satisfactory, money or notes returned. Only two car-loads received, so you had better call and procure yours, for these will not last long in this fine haying weather. It costs nothing to investigate. The proof of the pudding is in eating it.

GIVE US A CALL, and if we cannot prove to you our Haying Machinery is away above all others, we will give you one FREE. TRY US.

Latimer & Botterill,

Red Deer and Calgary.

Annual Midsummer Clearing Sale.

Only once a year can we give the people of Red Deer an opportunity to buy good Seasonable Goods away below regular prices.

To make room for one of the largest and most up-to-date Fall Stocks ever shown in Red Deer, we have searched our store for everything with the seal of summer on it, and **WE ARE CLEARING THESE GOODS REGARDLESS OF COST.**

A Pile of Summer Blouses—Regular prices 75c. to \$1.75, clearing at 50c. and 75c.

Shirt Waist Suits—\$4.50 to \$6.00.

Women's Oxford Shoes, worth 1.50 and 1.75. Clearing at \$1.25 a pair.

A SNAP IN MEN'S SHIRTS—We were fortunate in securing about 200 sample? Shirts, which are selling 25 per cent below actual worth. Don't miss these bargains.

A Line of Men's Summer Suits to clear at \$5.00 each.

A CHOICE STOCK OF GROCERIES

always on hand. Just the right things for you if you are going camping.

HILL & HORN,
GENERAL MERCHANTS **RED DEER.**

Spectacle fitting is no guesswork with us. Our glasses satisfy because they are right.
